## NEW BODY WILL WORK FOR A GOOD ROAD

Lincoln Highway Association  
of Colorado Formed at  
Meeting Here

L. E. CURTIS IS PRESIDENT

Twelve Counties Along Line of  
Proposed Route Send  
Delegates

The Lincoln Highway association of Colorado was organized yesterday at a meeting of about 65 delegates representing the 12 counties along the line of the proposed central road through the state and fully that many more from the commercial bodies, good roads associations, etc., of El Paso county. The meeting was held at the Chamber of Commerce headquarters. Leonard E. Curtis, president of the Colorado Springs Automobile Club, was elected president of the new organization and R. E. L. Giles, secretary of the Manitou Springs Hot Iron club, was elected secretary-treasurer. The prime object of the new association is to secure support of a central road through Colorado and make it a part of the great central transcontinental highway.

Advantages of Central Road. In advocating the central road he pointed out that the distance from Manitou to Colorado Springs is 100 miles shorter by the Golden Belt route through Kansas and the central route through Colorado than it is by the Santa Fe trail or the southern route. The distance, he said, from Omaha, Neb., to Colorado Springs is 660 miles shorter by the Golden Belt route through Kansas and the central route through Colorado than it is by the Omaha-Denver route or the northern route. In other words, if the central route were used the autoist could travel to Colorado Springs first and then tour through Colorado either to Denver or Pueblo and still not travel as far as he would if he used either the northern or southern route.

Mr. Curtis also spoke of the help that would be received by the association from the state highway commission in the matter of signs and various other small necessities. A. W. Henderson, secretary of the Chamber of Commerce, was elected temporary secretary and a committee composed of two delegates from each county appointed as a committee on permanent organization. The members were: R. E. Carson, the Rev. E. P. Owen and J. K. Rouze; Lincoln, Edmund Pauls and J. M. McClure; Elbert, Robert Cameron and Lee Stewart; El Paso, R. L. Holland and Harry Hutchinson; Teller, A. E. Clinton and W. L. Turner; Park, R. P. Link and W. R. Milligan; Chaffee, Joseph

## RUTH RAGAN, SPRINGS GIRL, PLUNGES INTO SEA AND SAVES CHUM

Miss Ruth Ragan, graduate of Colorado college in the class of 1907, and former teacher of modern languages in the college, proved herself a heroine of the first rank when she plunged into the ocean from the deck of the Pacific liner Nippon Maru, near the Hawaiian Islands, Tuesday, and rescued her friend, Miss Margaret Page, Berkeley, Cal., from drowning.

The sea was unusually rough, and Miss Page was thrown overboard by a surge of the vessel. Without hesitation Miss Ragan threw off her wraps and dove over the rail where she saw her friend disappear, and succeeded in sustaining her until a lifeboat could be lowered.

The two girls met each other after the voyage began and were going to Japan to engage in Y. W. C. A. work at Tokyo. Miss Ragan was in the association work in Denver for several years, where she accomplished much in the opening of the rest and recreation rooms for working girls. She is quiet and unassuming and no one would have suspected that she would have the courage displayed in this heroic rescue. The only report that she succeeded in doing a thing which few women would undertake, and consequently became the object of much admiration on the part of the passengers and crew of the steamer.

Miss Ragan graduated from Colorado college with high honors, was elected to the Phi Beta Kappa society and was a popular student. She is a member of Minerva society of the college and held the office of president of the Y. W. C. A. Her father is superintendent of public instruction at Sterling, Colo.

## BELFAST FILLED WITH SOLDIERS ARE TO PREVENT HOME RULE RIOTS

Churchill Will Not Be  
Pacifactory

BELFAST, Feb. 7.—How many soldiers are stationed in Belfast in anticipation of possible trouble at the great home rule meeting tomorrow is kept secret, but the authorities say they are sufficient to quell any serious disorder.

Tonight everything is quiet and preparations have been completed for the gathering in Celtic park, where Winston Churchill and John Redmond are to deliver speeches. The Marquis of Londonderry, Sir Edward Carson and other prominent Unionists are also coming, in order to influence their followers to keep the peace. Ulster hall, the engagement of which has been relinquished by both Liberals and Unionists, is now guarded by the police. Recently the Ulster Unionists issued a manifesto urging all Unionists to abstain from interference with the Churchill meeting and the Grand Orange lodge also adopted a resolution not to interfere with the admittance of the

Rain Drives People Indoors. A heavy cold rain prevails tonight and the streets are deserted. The football field filled for the Churchill meeting is a quagmire. It contains an enormous rain-soaked tent which presented a cheerless appearance.

Not less than 3,000 troops are in the city. The number may be many more than this, but they are invisible until tomorrow night when they will be distributed to various points. Fifteen hundred infantry and a squad of cavalry will guard the immediate vicinity of the meeting place while 2,000 troops will occupy strategic points along the route.

Both the Nationalists and protestants have recruited large bodies of special constables to help preserve the peace. The authorities appear to be afraid the mill women may create disturbances, but the lady mayors and other influential women have appealed to them to keep order. Seven magistrates have arrived to be in readiness to read the riot act if necessary.

Churchill to Talk Forcefully. Winston Churchill has let it be known in a general way that he will not arrive in tomorrow's speech to be pacifist to the Unionists but by the force of plain argument win over some of them to the cause of home rule so that they will instruct their representatives to vote for the bill that Premier Asquith is expected to introduce into parliament next month along the lines of Lord Gladstone's famous home rule bill.

An interesting fact in connection with the championship of the home rule by the first lord of the admiralty is that his father, Lord Randolph Churchill, was just as vehement in his opposition to home rule as the son is in its favor. It was on the same spot, in Belfast, that Lord Churchill delivered the historic utterance: "Ulster will fight and Ulster will be right."

But now the north of Ireland is by no means solidly opposed to home rule. In fact, there is a fairly large sprinkling of Nationalists throughout

## Continental Sugar Co. Files Answer in Suit

NEW YORK, Feb. 7.—The answer of the Continental Sugar company, which has refuted at Fremont, O., and Blissfield, Mich., one of the defendants in the government suit for the dissolution of the so-called sugar trust, was filed this afternoon in the United States district court.

The answer denies that the company is engaged in any unlawful combination or conspiracy to restrain interstate trade or foreign commerce in raw and refined sugar, sugar beets, molasses, syrups and other by-products of raw sugar.

The company further denies that it attempted to fix the price of raw sugar or sugar beets or that it was concerned in the closing down of other refineries for the purpose of preventing competition.

## Watch for Census Takers and Have an Answer Ready

The work of taking the annual school census will be commenced Saturday morning, and, owing to the large amount of work and the limited time, the school board is desirous that everybody cooperate with the enumerators and answer promptly all questions that may be asked.

The census this year will be practically the same as it has been heretofore, the principal questions being: the names and ages of children. It is requested that the people of Colorado Springs, when called upon by the enumerator, answer quickly and accurately all questions that may be asked, because it is important that the census be correct.

The census enumeration has been assigned to six people, under the direction of Joseph Sykes, and the time limit is March 1.

## RUTLEDGE EXPLAINS NEW RATE SCHEDULE

Superintendent of M. W. A.  
Sanatorium Upholds Action  
of Head Camp

Why the Modern Woodmen of America advanced insurance rates at the recent adjourned head camp at Chicago, and the different plans under which members may re-insure, was explained to Colorado Springs Woodmen at Woodmen hall last evening, by Dr. J. A. Rutledge and Joseph Richmann, superintendent and business manager, respectively, of the Woodmen sanatorium north of the city.

Dr. Rutledge said that, in his opinion, the protest that is now being made in certain quarters against the new rates will subside as soon as the rank and file of the membership learns the necessity for the action taken. Both Dr. Rutledge, who formerly was a director of the society, and Mr. Richmann were present at the head camp and active participants in the fight for the adoption of an adequate rate basis.

Speaking of the threat by some camps to secede from the society and form a new organization, the speaker pointed out that such action would not give the seceding members any lower rates than the Woodmen have now adopted, for the reason that fraternal societies cannot get licenses to operate in a large number of states if their rates are less than the ones that will be in force in the Modern Woodmen after January 1 next.

Says Rates Are Low. "In 16 states there is in force an act called the Mobile bill, which compels adequate insurance rates for all fraternal societies doing business in these commonwealths. In many other states insurance commissioners, acting on their own initiative, have societies that have not adopted a rate even higher than the new one of the Woodmen. The rates that the National Fraternal congress established, and which have been adopted by many organizations, are approximately 17 per cent higher than the new one of the Woodmen. As a matter of fact, the Woodmen, now even under the new plan, offer a rate that is the lowest of any society that the experts pronounce on a safe basis for all time to come.

"The increasing of rates, not only of the Woodmen, but of all other fraternal insurance societies, means the perpetuation of these organizations. Thirty societies now have rates as high or higher than the Woodmen, and others are getting on an adequate basis as rapidly as the membership can be educated to see the necessity for it. Under the new plan, the Woodmen will be able to meet all obligations at 100 cents on the dollar, with but 12 assessments a year, where, if the old rate had been adhered to, the number of assessments would have multiplied

## MORE COMPLAINTS FILED AGAINST 'BEAUTY DOCTOR'

Mrs. Holstein Ratton, who is under arrest here, was a thorough business woman, as well as a smooth one, the authorities say. When she could not get money for giving "beauty instructions," she would get jewelry as security until such time as the patrons could furnish the cash.

When she is placed on trial on a charge of obtaining money under false pretenses by failing to carry out her part of alleged "beauty instruction" contracts, the authorities propose to introduce two or three witnesses who not only lost what money they laid but their jewelry as well. One woman, it is claimed, only had \$25 to give to Mrs. Ratton, so the latter took a bracelet and a diamond ring.

Following his arrival in this city, a warrant was read to Professor Ratton, husband, charging him with aiding his wife. Professor Ratton left Ogden, where he was arrested, with the understanding that he was not wanted. He paid his railroad fare and other expenses so that he could be with his wife, and as soon as he reached this city a warrant was served on him by Charles Birdsell, deputy sheriff, who brought Mrs. Ratton back to this city.

Additional complaints were made yesterday by the Whitaker Shoe company, Kaufman's, Perkins & Shearer and the Standard Electric company, alleging that they had advanced certain articles for approval to Mr. and Mrs. Ratton, but the goods had not been paid for.

## JUDGE HOOK'S NAME IS SCRATCHED OFF

Secretary Nagel Probably Is  
to Be Appointed to Su-  
preme Court Bench

WASHINGTON, Feb. 7.—The vacancy on the supreme court bench, the fifth that has occurred in the present administration, probably will be filled by the appointment of Secretary of Commerce and Labor Charles Nagel of St. Louis. President Taft is expected to send the nomination of Nagel to the senate within a few days.

United States Judge William Hook of Kansas, who until last night was most prominently mentioned for the vacancy, is said to have been eliminated from further consideration at a session of the cabinet today. All of the lawyers in the cabinet, except Mr. Nagel, were present, and afterwards it was learned that the president had made clear his intention of appointing his secretary of commerce and labor.

This report was so generally credited tonight that rumor was busy with a possible successor to Mr. Nagel in the cabinet.

W. SMITH, MILLIONAIRE  
PHILANTHROPIST, DEAD

ROCHESTER, N. Y., Feb. 7.—William Smith, aged 34, millionaire, surgeon, philanthropist and philanthropist, died in Geneva, N. Y., late last night.

He was interested in science, spending \$20,000 on the discovery of comets, to Geneva, and maintaining an observatory for him. He gave Hobart college an endowment of \$500,000.

## TATE ESCAPES; WILSON CAUGHT; BOTH SAME MAN

William Tate, who escaped from the county rock pile Monday afternoon, and James Wilson, who was sentenced to the rock pile Tuesday morning by Judge Starrett of the police court, are the same. The fact did not become known until the rock pile overseer compared notes Tuesday afternoon.

Tate escaped Monday while the overseer was giving instructions to a set of prisoners at the opposite end of the line. He had been sentenced a few days before by Justice Gentry to serve 30 days on a charge of vagrancy. His absence was noted at the time, but a search about the city failed to find him.

But Monday night Tate, then named under the name of Wilson, was arrested by the police. The same old charge of vagrancy went against him and he was found guilty at Tuesday morning's session of police court along with seven other prisoners. Tuesday afternoon the overseer was looking over his prisoners and comparing notes. Then he spied Tate.

"What are you doing here?" the overseer asked. "I thought you had left." "I did leave," was the reply, "but I guess I didn't look good to the police. They brought me back."

ASHLAND, Wis., Feb. 7.—Returning today show that Ashland rejected the commission form of government yesterday, 834 to 600.

## MINING MEN HAVE NEW ASSOCIATION

Organized for Mutual Benefit  
of Mine Owners as Well  
as Lessees

A new mine owners association, composed of mine owners and lessees in the Arapahoe district, has been organized and incorporated under the laws of Colorado.

Judge E. A. Culbert of Denver is president of the association, Irving Howbert of this city is vice president and D. D. Woodruff of Clippie Creek is secretary-treasurer.

The purpose of the new organization is for the mutual benefit of the owners and lessees in the district. At present there are about 60 members in the association and it is expected that about 10 more will become members in a short time. The board of directors is composed of one man from each mining company that employs at least 25 men and five members at large, elected by the members of the association not otherwise entitled to a directorship. In this way the entire membership is represented on the board.

The new association is really an outgrowth of the old Mine Owners association and it is pointed out that the same to the mining men that a chamber of commerce does to a community.

About 17 committees have been appointed to look after the different phases of the mining industry, and the work of the association will be carried on in the same way as the work of a commercial body.

## WOMAN WHO BURNED CHILD WITH HOT POKER, IN JAIL

JOHNSTOWN, Pa., Feb. 7.—Fifth Ford, housekeeper for Adams Sheets, who lives 12 miles from this city, was committed to jail in default of \$400 bail, here today, on a charge of aggravated assault and battery on the allegation that she scared the lack of Sheets' 3-year-old son with a hot poker. The woman said she burned the child to break him of a habit, but did not know the implement was so hot.

## WOMEN OFFER TO HELP RESCUE MFN ENTOMBED IN CALIFORNIA MINE

AMADOR CITY, Cal., Feb. 7.—Sixty-five miners were imprisoned in a cave at the Bunker Hill mine near here late today. The breaking of the cable of the cage in the main shaft caused the collapse of the supporting timbers of the shaft and the release of tons of earth that completely buried the entrance. Late tonight crews succeeded in communicating with the men by means of the air pipes and were told that none of the imprisoned men was injured. If the air pipes can be kept clear and no more earth falls away, it is believed rescue will be effected tomorrow.

## Georgin Lynching Is Followed by Deaths and Riots

VIDALIA, Ga., Feb. 7.—As a result of the riot at Cedar Crossing yesterday in which a negro was lynched by a mob of negroes, another black, Jesse Flowers, died today and a mob chased officers having another negro in charge.

Monk Dayton was arrested today and only quick work on the part of the officers saved him from a mob and landed him in jail at Lyons. The death today made three resulting from the riot which started when a negro was shot and killed and others wounded.

## USES LINCOLN AS HIS GUIDE

ROOSEVELT REPLIES TO  
CERTAIN QUESTIONS  
Does So, However, Through  
Excerpts From Martyred  
President's Letters

NEW YORK, Feb. 7.—When the correspondence of Abraham Lincoln as a text book and six newspaper reports as a guide, Col. Theodore Roosevelt, three days ago, collected his first day in a speech about politics. "I don't know," he said, "the book with the declaration that he had tried to take Lincoln's letters as a guide for himself, and thought that experts would make proper replies to questions that are being asked him, one of Lincoln's letters, especially Mr. Roosevelt's, would apply to conditions confronting him today. That was a letter written at Springfield, April 6, 1860, to C. F. McNeil. The part emphasized by Mr. Roosevelt reads as follows:

"I have made this explanation to you as a friend, but I wish no explanation made to our enemies. What they want is a squabble and a fuss, and they can have it if we explain and they cannot have it if we don't."

Another message read by Col. Roosevelt was Lincoln's confidential letter to A. Jones, written June 21, 1860. In part it said:

"And now a word of caution. Our adversaries think they can keep a point if they could openly force me to deny the charge, by which some degree of offense would be given to the Americans. For this reason, it must publicly appear that I am paying no attention to the charge."

Reminds Him of Onw Answers. "That reminds me of some more of my past answers," commented Col. Roosevelt. "You may recall that on several occasions I have said that I had nothing to say."

"If I were to have a month," he read from Lincoln's private and confidential letter of October 2, 1860, to C. D. Prentice, "I could not express my conservative views and intentions more clearly and strongly than they are expressed in our platforms and in my many speeches already of print and before the public."

Col. Roosevelt interrupted the reading here to say:

"I am not speaking now of my immediate problems, but referring only to general policies."

"And now, my friend, do not misunderstand me. I have not decided that I will not do substantially what you suggest. If I do finally abstain it will be because of apprehension that it will do no harm. For the good men of the south and I regard the majority of them as such. I have no objection to report to and seven times, but I have had men to deal with, both north and south, men who are eager for something new upon which to base misrepresentations, when they would like to frighten me, or at least to fix upon me the character of timidity and cowardice. They would seize upon almost any letter I should write as being an awful coming down."

"I intend keeping my eye upon these gentlemen, and not to unhesitatingly put any weapons in their hands. The politicians of those days, Mr. Roosevelt said in closing, "had much the same sort of problems confronting them as we have today."

## BANDITS' LOOT SMALL

MEMPHIS, Tenn., Feb. 7.—According to officials, the bandits who held up Rock Island train No. 43, near Hurlbert, Ark., early this morning, were poorly recompensed for their efforts. Express company officials deny there was a large amount of specie on the train destined for Oklahoma City, and postal officials say but one pouch of mail was missing.

An all-day search of the wooded territory bordering the Mississippi opposite Memphis in an effort to find the five men who robbed the train, was barren of results, so far as can be ascertained tonight.

## ORDER INVESTIGATION ALLEGED 'MONEY TRUST'

WASHINGTON, Feb. 7.—An investigation of the "money trust" was ordered by the Democrats of the house in caucus tonight, after the Henry plan for a special committee had been defeated, 155 to 68.

The caucus then instructed the standing committees of the house on banking and currency, judiciary, interstate commerce, and elections, to proceed with the inquiry.

'NO SUPPRESSION'--WILSON  
Secretary of Agriculture Ap-  
proves Countercharges  
Against Engineers

WASHINGTON, Feb. 7.—Thorough investigation of charges that reports of government representatives on the Florida everglades lands were suppressed by officials of the department of agriculture, and that department engineers were dismissed because of their involvement in this connection, was determined upon today by the Democratic members of the house committee on expenditures.

A statement issued by Secretary McAdoo of the department, with the approval of Secretary Wilson, declares that the charges against the department are untrue, and that "the effort to besmirch the secretary of agriculture" is a "gross and deliberate attempt to injure the department."

In a prejudiced, one-sided statement given out by Representative Frank Clark of Florida on the everglades controversy, it is sought to show that the reason the secretary of agriculture suppressed a circular on information which had been proposed by the officers of drainage investigation boards, and declined to print a complete report of the drainage work which the department had done in the everglades, was because the secretary did not regard the circular and reports as sufficiently favorable to please the land promoters who were operating in the glades. In Mr. Clark's statement it is further sought to show that the recent dismissal of Messrs. Elliott and Morehouse, drainage engineers, was for failure to show sufficient favors to the land promoters.

Declares Engineers Disagreed. "Both of these statements are untrue and Mr. Clark's effort to besmirch the secretary of agriculture will fail. The secretary refused to print the report of the work done in the everglades because it was only a preliminary report and the correct interpretation of the work, but Mr. Elliott, without further investigation, radically changed his position, and the experts of the bureau of plant industry, familiar with Florida conditions, disagreed with both Wright and Elliott.

Elliott and Morehouse were dismissed by the secretary because they had certified and presented false accounts, knowing them to be false, on which the government had paid out money. Not only did they know the accounts were false, but they presented the persons to make the false accounts, telling these persons that they would receive money for their trouble. They admit they did this; they concealed their unlawful acts from their chief, Dr. A. C. True, and when Dr. True discovered the facts, he recommended their dismissal. The secretary dismissed them, and sent all of a violation of law involved, and all of

The men are imprisoned in a shaft 200 feet beneath the surface. Rescue crews from the prominent K-y-stone mines were rushed to the scene and every available man in the vicinity was put to work.

Scores of relatives of the imprisoned men gathered at the top of the earth-shaken shaft heaving for news of the victims and some of the women volunteered to join the rescue forces. Rescuers late tonight heard the voices of the men cheering them onward and telling all were safe. No attempt will be made to provide even liquid food to the men, in fear of clogging the air pipes.

### J. B. DUKE WILL HEAD FOREIGN TOBACCO CO.

Resigns Presidency of American To-  
bacco Co.—Chief Offices Will Be  
in London

NEW YORK, Feb. 7.—James B. Duke soon will resign from the presi-  
dency of the American Tobacco com-  
pany to become chairman of the British  
American Tobacco company, limited,  
with his chief offices in London. It  
was announced late today at the  
American Tobacco company offices.  
With this announcement was coupled  
the statement that he would be suc-  
ceeded as president of the American  
Tobacco company by Percival S. Hill,  
long a vice-president.

Mr. Duke's desire in making the  
change, it was explained, was to de-  
vote himself to the extension of busi-  
ness of the British American Tobacco  
company, limited, which now has  
plants in China, India, Australia,  
Canada, South Africa and continental  
Europe.

Mr. Duke said he felt that a larger  
field of action and usefulness awaited  
him in the British American Tobacco  
company. He added that all the com-  
panies formed out of the American To-  
bacco company and the other com-  
panies which were disintegrated under  
the decree of the circuit court were  
now fully organized and embarked on  
their separate careers.

In explanation of the omission by  
the American Tobacco company today  
to declare a dividend on its common  
stock, Mr. Duke said he had advised  
that in view of the large payments  
in cash which the company recently  
had been compelled to make in the re-  
formation of its bonds, and for other  
purposes required by the court's de-  
cree, it would be wise to pay no divi-  
dend on the common stock at present,  
and that the directors had concurred  
in this opinion.

### MADERO UPHOLDS HIS MINISTERS

MEXICO CITY, Feb. 7.—"For no rea-  
son will I change any of my ministers.  
The members of my cabinet are hon-  
orable men. They are patriots. I  
shall not permit any of them to be  
slandered as you are slandering them."

In these words President Madero to-  
day brought to a termination an inter-  
view sought by a committee from the  
antirevolutionists party which was at-  
tempting to persuade him to dismiss  
from his cabinet the ministers of war  
and interior.

The conference had proceeded calmly  
up to the moment when the spokesman  
of the committee, in reply to a state-  
ment of the president that evil-minded  
Mexicans were aiding the rebels, de-  
clared that this was true and that more-  
over the president knew these men be-  
cause they were members of his cabi-  
net. The president then peremptorily  
ended the conference.

In line with this incident Alfredo  
Robles Dominguez, one of Madero's  
staunchest supporters during the revo-  
lution, publicly criticized the adminis-  
tration today, stating that in his opinion  
the removal of the entire cabinet  
could not save the administration.

The visit of the committee today to  
President Madero was to interpellate  
regarding the source of supplies. There  
were stories of haciendas having fur-  
nished great quantities in return for  
immunity from robbery, but the most  
serious report of all is that supplies  
have been sent from the government  
arsenal in the capital itself.

Scores of the president's most ardent  
supporters of six months ago are specu-  
lating on his ability to carry the coun-  
try through the crisis. The element  
that is giving the most trouble is that  
which followed Madero during the  
revolution. This party charges him  
with not putting into immediate effect  
reforms promised.

**Gonzales to Resume Office.**  
EL PASO, Tex., Feb. 7.—Abraham  
Gonzales, constitutional governor of  
the state of Chihuahua, is expected to  
resume the discharge of the duties of  
his office in the city of Chihuahua to-  
morrow, according to advices received  
by the mayor and city council of Chi-  
huahua this afternoon from the  
state capital.

According to these official messages,  
Governor Gonzales wired General Pas-  
cual Orozco from Jimenez today that  
he would depart from that place at  
once for the city of Chihuahua to as-  
sume the constitutional functions of his  
office.

General Orozco was tendered the ap-  
pointment of provisional governor of  
the state by the state legislature as-  
sembled in special session today, but  
declined it. Abraham Gonzales is ex-  
pected to arrive in Chihuahua some  
time tomorrow, and will probably re-  
main until matters are cleared up.

Francisco Hernandez, who resigned as  
secretary of state to head a band of  
rebels, has proclaimed himself pro-  
visional governor of the state under  
the Gomez provisional government. He  
is represented at Mapula, a station  
about 20 miles south of the city of  
Chihuahua, at the head of about 200  
men. The Mexican National lines pas-  
senger train arrived from the city of  
Chihuahua at 4 o'clock this afternoon.  
It brought a small additional number  
of refugees from that section.

**Clash With Zapatistas.**  
CUERNAVACA, Mex., Feb. 7.—For  
three hours, 200 federal troops fought  
approximately 400 Zapatistas near  
Santa Maria today before they de-  
flected them. The losses are not known.  
Reports to army headquarters here  
are that the Zapatistas are gathering  
in considerable numbers at a point 40  
miles southeast of Cuernavaca.

**TORREON, Mex., Feb. 7.**—Rebels  
shouting "viva" for Vasquez Gomez  
raided a number of haciendas in the  
vicinity of Torreon, Coahuila, yester-  
day, according to today's advices, and  
near Sabina, a passenger train was  
fired on. Two members of the train  
crew were wounded.

The use of telegraph poles has been  
disputed with entirely by the officials  
of one Welsh town, by making an ar-  
rangement with the property owners to  
allow the wires to be strung from  
house to house. There is some hesi-  
tation on the part of quite a con-  
siderable number, but the desired per-  
mission was quite generally secured  
conditionally in one portion of the town  
and the improved appearance was so  
great that there was little trouble in  
securing the permission of all property  
holders. Now the new condition is a  
source of great pride on the part of  
the residents.

### INDICTED LABOR LEADERS MAY CONSOLIDATE DEFENSE

Develops That There Will Be at Least  
40 Defendants Charged With  
Dynamite Conspiracy

INDIANAPOLIS, Feb. 7.—Captives  
for the simultaneous arrest of all the  
men named in the 32 indictments re-  
turned by the federal grand jury in the  
dynamite conspiracy cases, with cer-  
tified copies of the indictments, were  
completed today in the expectation  
that arrests might be effected within  
five days—possibly on Saturday, but  
more probably next Monday.

Although the men, most of them la-  
bor union officials and agents, are  
scattered from Boston to the Pacific  
coast, the papers for their apprehen-  
sion have been so arranged that when  
they are arrested they will be afforded  
an opportunity to give bond the same  
day. The bond, said for all the men  
to aggregate \$300,000, is to be asked for  
their appearance at Indianapolis on  
March 15. When they are to be ar-  
ranged before Federal Judge Anderson.

It has developed that the defendants,  
accused of complicity with the McNamara and Orin McManis in perpe-  
trating more than 100 explosions, will  
number at least 40.  
Telegrams announcing the return of  
the indictments are said to have been  
forwarded from United States District  
Attorney Miller's office today to au-  
thorities in various federal districts  
where arrests are to follow.

Although the defendants, individ-  
ually, probably will seek counsel after  
their arrest, it is expected the defense  
of all the men ultimately will be con-  
solidated.

Frank M. Ryan, president of the In-  
ternational Association of Bridge and  
Structural Iron Workers, said today  
he had made no plans for the defense  
of any of the men.

"There will be time enough to think  
of that when we learn who have been  
indicted," said Mr. Ryan.

## Emperor William Opens German Reichstag With Great Pomp

BERLIN, Feb. 7.—Emperor William in person at noon today opened the  
reichstag, the thirtieth assembled since the foundation of the German empire.  
As is customary, instead of going to the imperial parliament, the emperor  
called the members to the palace, where he made his speech from the throne  
in the great white hall. The deputies present were for the most part in uni-  
form or court dress, but no member of the Social Democratic party, comprising  
more than one-fourth of the membership of the house, put in an appearance.  
Led by the oldest member of the reichstag, the radical, Albert Traeger,  
all the deputies joined in the customary three cheers as the emperor entered.  
He was attended by several of the royal princes and surrounded by all the  
pomp and ceremonial of a medieval pageant. He was preceded by tabarded  
heralds and gray-haired generals bearing the crown and scepter, the sword  
of state, the imperial banner and other emblems of empire.

The emperor walked straight to the throne, mounted the dais, and placing  
his helmet on his head, read his speech, which he took from the hands of Dr.  
Von Bethmann-Hollweg, the imperial chancellor.

The main note of the speech was the demand for additions to the military  
and naval forces, which are considered necessary in the present international  
situation.

After greeting the members of the  
imperial parliament in the name of  
the governments of the empire's con-  
federated states the emperor affirmed  
his desire to augment the welfare of  
all classes of people of Germany and  
maintain the strength and prestige  
of the nation. He appealed to the new  
parliament for its loyal cooperation in  
this work and then expressed the  
hope that by a strict adherence to the  
financial policy now in force the im-  
perial finances would soon be placed  
on a thoroughly sound basis.

The emperor then referred to the  
new commercial treaties about to be  
entered into between Germany and  
other countries and announced that  
the imperial government in negotiating  
these treaties would adhere to the old basis  
of its tariff policy under which trade,  
industry and agriculture had prospered  
so well.

Then came the part of the emperor's  
speech for which members of the  
reichstag were waiting with the utmost  
eagerness—that part in which he made  
references to the international situa-  
tion and to the expected increase in  
the army and navy. There was partial  
disappointment, however, as the em-  
peror merely announced the measures  
in a general way and did not give any  
details.

He said: "For the success of our  
work of peace at home and over seas,  
the empire must remain powerful  
enough to defend at all times its na-  
tional honor and its possessions as  
well as its just interests in the world.  
It is, therefore, my constant duty and  
care to maintain and strengthen both  
on land and on sea the defensive  
power of the German people, which  
does not lack young men capable of  
bearing arms. Measures with this end  
in view are in preparation and will be  
submitted to you together with propo-  
sals for covering the additional  
cost. In helping this important work  
you will be greatly serving the father-  
land."

"In concluding, our agreement with  
France we have given new proof of  
our readiness to settle international  
difficulties amicably whenever such a  
course is consonant with the dignity  
and interests of Germany. Side by side  
with the maintenance of our alliance  
with Austria-Hungary and Italy, my  
policy has been steadily directed to-  
ward the cultivation of friendly rela-  
tions with all the powers on the basis  
of mutual respect and good will."

"Trusting in the healthy force of the  
German people and relying on God's  
gracious assistance, I look with confi-  
dence beyond the struggles of today to  
the future of the empire."  
"I greet you, gentlemen, at the open-  
ing of the new session of the imperial  
parliament in the hope that your  
work will be of service to the nation  
and to the people."

### POWERS ARE WATCHING ACTIONS OF RUSSIA

Diplomatic Difficulties Between Rus-  
sians and Chinese Are  
Continuing

PEKIN, Feb. 7.—Diplomatic dif-  
ficulties as well as occasional mili-  
tary incidents between Russians and  
Chinese continue and are being  
watched closely by foreign repre-  
sentatives here.

The Russian legation, in reply to a  
charge that Russian troops recently  
aided Mongols in an attack on a Chi-  
nese garrison, expressed the incident  
as a conflict in which both Mongols  
and Chinese entered the forbidden  
railway zone.

Conditions in Manchuria are becom-  
ing worse. Reports from Russian  
sources say the Mongols have carried  
the warfare to the Amur river while  
brigand bands, numbering hundreds,  
have gone so far as to attack and cap-  
ture several towns.

Viscount Uchida of Japan, while out-  
lining Japan's foreign policy in the  
house of peers, declared that the  
friendship between the United States  
and Japan is so cordial that it cannot  
be shaken by any amount of jingo  
talk.

### BRITISH CABINET ALLEGED TO BE FACING UPHEAVAL

LONDON, Feb. 7.—The Standard  
prints a story of an alleged serious  
dissension in the British cabinet in-  
volving an intrigue to displace Premier  
Asquith in favor of David Lloyd-  
George, the present chancellor of the  
exchequer.

Chancellor Lloyd-George took occa-  
sion, February 3, in a speech at the  
City of London Liberal club, to de-  
clare that the report of a split in the  
cabinet was entirely unfounded. He  
also gave assurances that the alleged  
feud between himself and Premier  
Asquith was a myth.

### J. B. DUKE WILL HEAD FOREIGN TOBACCO CO.

Resigns Presidency of American To-  
bacco Co.—Chief Offices Will Be  
in London

NEW YORK, Feb. 7.—James B. Duke soon will resign from the presi-  
dency of the American Tobacco com-  
pany to become chairman of the Brit-  
ish American Tobacco company. Lim-  
ited, with his chief offices in London.  
It was announced late today at the  
American Tobacco company offices  
with this announcement was coupled  
the statement that he would be suc-  
ceeded as president of the American  
Tobacco company by Percival S. Hill,  
long a vice president.

Mr. Duke's desire in making the  
change, it was explained, was to do-  
vote himself to the extension of busi-  
ness of the British American Tobacco  
company, Limited, which now has  
plants in China, India, Australia,  
Canada, South Africa and continental  
Europe.

Mr. Duke said he felt that a larger  
field of action and usefulness awaited  
him in the British American Tobacco  
company. He added that all the com-  
panies formed out of the American To-  
bacco company and the other com-  
panies which were disintegrated under  
the decree of the circuit court were  
now fully organized and embarked on  
their separate careers.

In explanation of the decision by  
the American Tobacco company today  
to declare a dividend on its common  
stock, Mr. Duke said he had advised  
that, in view of the large payments  
in cash which the company recently  
had been compelled to make in the re-  
tirement of its bonds, and for other  
purposes required by the court's de-  
cree, it would be wise to pay no di-  
vidend on its common stock at present,  
and that the directors had concurred  
in this opinion.

### MADERO UPHOLDS HIS MINISTERS

MEXICO CITY, Feb. 7.—"For no rea-

heralds and gray-haired generals bearing the crown and scepter, the sword  
of state, the imperial banner and other emblems of empire.  
The emperor walked straight to the throne, mounted the dais, and placing  
his helmet on his head, read his speech, which he took from the hands of Dr.  
Von Bethmann-Hollweg, the imperial chancellor.  
The main note of the speech was the demand for additions to the military  
and naval forces, which are considered necessary in the present international  
situation.

After greeting the members of the  
imperial parliament in the name of  
the governments of the empire's con-  
federated states the emperor affirmed  
his desire to augment the welfare of  
all classes of people of Germany and  
maintain the strength and prestige  
of the nation. He appealed to the new  
parliament for its loyal cooperation in  
this work and then expressed the  
hope that by a strict adherence to the  
financial policy now in force the im-  
perial finances would soon be placed  
on a thoroughly sound basis.

The emperor then referred to the  
new commercial treaties about to be  
entered into between Germany and  
other countries and announced that  
the imperial government in negotiating  
them would adhere to the old bases of  
its tariff policy: under which trade,  
industry and agriculture had prospered  
so well.

"Then came the part of the emperor's  
speech for which members of the  
reichstag were waiting with the utmost  
eagerness—that part in which he made  
references to the international situa-  
tion and to the expected increase in  
the army and navy. There was partial  
disappointment, however, as the em-  
peror merely announced the measures  
in a general way and did not give any  
details.

He said: "For the success of our  
work of peace at home and ever seas,  
the empire must remain powerful  
enough to defend at all times its na-  
tional honor and its possessions as  
well as its just interests in the world.  
It is, therefore, my constant duty and  
care to maintain and strengthen, both  
on land and on sea, the defensive  
power of the German people which  
does not lack young men capable of  
bearing arms. Measures with this end  
in view are in preparation and will be  
submitted to you together with propo-  
sals for covering the additional  
cost. In helping this important work  
you will be greatly serving the father-  
land."

"In concluding, our agreement with  
France we have given new proof of  
readiness to settle international  
difficulties amicably whenever such a  
course, as consonant with the dignity  
and interests of Germany. Side by side  
with the maintenance of our alliance  
with Austria-Hungary and Italy, my  
policy has been steadily directed to-  
ward the cultivation of friendly rela-  
tions with all the powers on the basis  
of mutual respect and good will."

"Trusting in the healthy force of the  
German people and relying on God's  
gracious assistance, I look with confi-  
dence beyond the struggles of today to  
the future of the empire."

"I greet you, gentlemen, at the open-  
ing of the new session of the imperial  
parliament in the hope that your  
work will be of service to the nation  
and to the people."

**POWERS ARE WATCHING  
ACTIONS OF RUSSIA**  
Diplomatic Difficulties Between Rus-  
sians and Chinese Are  
Continuing

PERIN, Feb. 7.—Diplomatic diffi-  
culties as well as occasional mili-  
tary incidents between Russians and  
Chinese continue, and are being  
watched closely by foreign repre-  
sentatives here.

The Russian legation, in reply to a  
charge that Russian troops recently  
aided Mongols in an attack on a Chi-  
nese garrison, expressed the incident  
as a conflict in which both Mongols  
and Chinese entered the forbidden  
railway zone.

Conditions in Manchuria are becom-  
ing worse. Reports from Russian  
sources say the Mongols have carried  
the warfare to the Amur river while  
brigand bands, numbering hundreds,  
have gone so far as to attack and cap-  
ture several towns.

The authority of the kutsuki, head  
of the Mongolian Lama-sect who is  
now the Mongolian grand khan, has  
secured recognition from Khallar in  
the north of Mongolia down to the  
Turkistan border.

In Turkistan a three-cornered con-  
flict is in progress between the im-  
perialist Chinese, rebels who have  
deserted from the imperial army, and  
the native Mohammedans who have  
taken the part of the revolutionists.

Viscount Uchida of Japan, while out-  
lining Japan's foreign policy in the  
house of peers, declared that the  
friendship between the United States  
and Japan is so cordial that it cannot  
be shaken by any amount of jingo  
talk.

**BRITISH CABINET ALLEGED  
TO BE FACING UPHEAVAL**

LONDON, Feb. 7.—The Standard  
prints a story of an alleged serious  
dissension in the British cabinet, in-  
volving an intrigue to displace Premier  
Asquith in favor of David Lloyd-  
George, the present chancellor of the  
exchequer.  
Chancellor Lloyd-George took oc-  
casion, February 5, in a speech at the  
City of London Liberal club, to de-  
clare that the report of a split in the  
cabinet was entirely unfounded. He  
also gave assurances that the alleged  
feud between himself and Premier  
Asquith was a myth.

## ROOSEVELT AND TAFT

In his volume of recollections, "Fifty Years of Public Service," Senator Cullom, of Illinois, says:

Mr. Roosevelt accomplished more in his term than any of his predecessors; more laws were enacted, laws of more general benefit to the people, but above all his administration enforced all laws on the statute books as they had never been enforced before. Colonel Roosevelt has proven over and over again, in every position he has ever occupied, from police commissioner of New York to the Presidency itself, that he is a marvelous man, a man of great resources, great intellect, great energy and courage and a man of the highest degree of integrity. He will go down in the history of this country as the most remarkable man of his day.

Senator Cullom is not a radical, an insurgent, a progressive, or a political "freak" of any sort. If he admires Roosevelt sufficiently to express his admiration thus forcibly it is reasonable to suppose that he has no other motive than honest conviction.

Readers of American history are aware that next to a vice president in office the most totally eclipsed individual in this country is an ex-president, especially during the period immediately following his departure from the White House. This is the tradition of a century and a quarter. But Roosevelt upset the tradition, just as he has upset several others, equally revered. With scarcely the loss of a day after the expiration of his official term he sailed for Africa and for a year buried himself in the jungle—but throughout that year it was Roosevelt and not Taft, who filled the first page, top-of-column position in the newspapers. As a "hunter-naturalist," in Uganda he was a more interesting personage to the people of the United States than His Excellency William H. Taft, President.

After a year of this experience he came home, re-entered politics, suffered a temporary reverse, and relapsed into what is usually called retirement. But there is no such thing as retirement for T. R. Where MacGregor is, there is the head of the table. To the American citizen, plain, everyday Theodore Roosevelt, without the aid of political patronage, living in retirement at his country home, continued to exercise a greater influence on the American people than was compelled by William H. Taft, President of the United States.

Mr. Taft, with the influence which comes through his official position, is today—officially—the choice of the Republican party for the next presidential nomination. If the decision were left to the millions of individuals who usually vote the Republican ticket the chances are that he would be at the end of the column. The plain truth is that the public lacks confidence in him. The public believes thoroughly in his honesty and his sincerity. But the public does not believe in his capacity for the presidency—the most important executive office in the world. It does not believe that Mr. Taft is fitted for the part which he now plays through the grace of his predecessor and his present chief rival.

## WHAT THE PEOPLE THINK

If the Republican National Convention were to be held today it unquestionably would not choose Taft. But it won't be held today—it will be held next June—and long before then Roosevelt's position will be more clearly understood and the Roosevelt sentiment will be better organized. Delegates from a score of states who, if the convention were held now, would vote for Taft, merely because nobody of real importance is now opposing him, will then vote for Roosevelt. Thus far efforts to smoke out the man at Oyster Bay have been futile, but the chances are that within three or four weeks he will be forced by circumstances to declare his position. Already it is generally understood that he will take the nomination if it comes to him as a genuinely popular movement—that is, if it comes to him as an expression of the real feeling of the American people. And there is every indication that it will come to him in just this way.

Colonel Watters, a keen observer of political conditions and an extremely clever chronicler of political history, has observed

that if Roosevelt goes into the White House again there will be no getting him out until he is carried out "feet first"—which means that he will stay there until he dies. Which is a revised version of the Colonel's time-honored belief that Roosevelt wants to be, and is to be, emperor of the United States. Our confidence in the American sense of humor forbids serious consideration of this prophecy. Roosevelt may—probably he will—be elected President next November. But the fact will not portend the destruction of the republican form of government. If he goes into the White House in March, 1913, he will depart from it in March, 1917, in the prescribed manner, and in the interval he will give the people a better administration than they now have reason to expect from the present occupant of the coveted abode.

## HOORAY FOR CHINA JIM

It is always a privilege and a pleasure to chronicle the advancement of those of our esteemed fellow townsmen who attain celebrity. Ever since Colorado Springs started in business it has been producing celebrities with unfailing regularity, but until now it has produced none of really world-wide renown. Now, however, if steps to the front with a man who is to live in history as one of the founders of a nation. We take pleasure in introducing China Jim.

Jim has lived in our midst for twenty years or more, and everybody knows and enjoys him. But few of us ever suspected that he was a statesman and empire builder—or, rather, a republic builder and empire destroyer. But he is, just the same. Jim is the right bower of Dr. Sun Yat Sen, the new president of China, and next Sunday he is going to leave this town for his native land to give 400,000,000 fellow Celestials the benefit of his knowledge of how to run a republic.

It seems that Jim is really a personage of importance. We learn from the columns of the veracious evening paper that he owns a Chinese newspaper and two or three stores in San Francisco, a bank in Canton, extensive rice plantations and a lot of big importing concerns in China. Through Mrs. Jim "he can claim relationship to the old Manchur dynasty," and he is a personal friend of President Sun, the new official dispenser of patronage in the Chinese Republic. Recognizing his peculiar fitness for the job, Sun wants Jim to come over and tell him how to run a republic in the most approved fashion. Which means that for the next three or four months Jim will be the main works in the Chinese government. He would stay longer but he can't afford to be fooling around establishing a republic in China when the tourists in Colorado Springs are waiting to buy his goods.

Our congratulations and best wishes to China Jim. Colorado Springs would dislike to lose him, but when the proper time comes it would highly esteem the honor of launching his boom for president of China. He would poll the solid vote of El Paso County and there is no doubt he would make the best president that China has ever had.

## OPEN-PARLIAMENT

**THE AMERICAN WOMAN'S LEAGUE.**  
 To the Editor of The Gazette:  
 Please publish this in reply to the article which appeared in this column under date of February 7. This letter was sent to all the regents, senators and representatives of the American Woman's league throughout the United States.

Pikes Peak Chapter American Woman's League, Colorado Springs, Colo., Oct. 12, 1911.  
 To the Regents, Senators and Representatives:  
 Dear Madam:—The Nineteen Hundred and Eleven National Year Meeting to the members of the American Woman's League by Mr. E. G. Lewis was "Keep your faces to the sunshine and you cannot see the shadows." Taking this motto for a theme, Miss Jennie Van Allen of the Los Angeles, Cal. chapter wrote the beautiful poem, entitled "Turn Your Faces to the Sunshine While the Shadow Falls Behind." Mrs. Maude McFerran Price of Colorado Springs set the words of this beautiful poem to music and the song has been acknowledged by all who have had the pleasure of hearing it as being so very appropriate for the league's national song. It is necessary that we have for our national league song a composition appropriate to and fitting the high purposes of this great organization—the American Woman's League.

This song will be on the program at the coming convention and will be presented at that time for adoption as the national song. Under separate cover we are mailing you a copy that you may have an opportunity to see the merits of the production. We earnestly ask your support and vote on its adoption when presented. If you should fail to receive the copy, please notify us and we will send you another at once. Truly yours,  
 MRS. ISOLA M. BATES, Chairman.  
 1018 East Platte Ave.

## FROM OTHER PENS

"COASTING" AND "SLIDING-DOWN HILL."  
 From the Kansas City Star.

Times are changing, times and other things. A generation ago kids used to "slide down hill." Now they "coast." It memory serves, eight or ten years ago, "coasting" done in the good old times, was in the books. Rollo used to "proceed by diligence" through Switzerland. It isn't recalled whether he used to "coast" when at home, but if he didn't he might have. The word was one appropriated by the precise little boys in the precise juvenile literature of an earlier day.

How has the change come? Evidently "coast" bothers the etymologists. Webster doesn't attempt to speak definitely as to its origin. It simply sug-

gests a reference to the old French "coaster," a hill-side. The new Concise Oxford goes a step farther and digs up the old French verb, "coaster," meaning apparently "to go hillside." For be it from the likes of us to take a hand in this erudite chasing of origins.  
 But the suggestion may modestly put forth that "coasting," without regard to its derivation, has begun to supplant "sliding down hill" with the youth of the land because most of the hill-sliders ride bicycles, on which they universally "coast." It was easy to transfer the familiar word from the bicycle to the sled.

## NEW RULE IN 172 CITIES

From the Kansas City Star.  
 Superior, Wis., yesterday adopted commission government. Only two cities in Wisconsin have been operating under the new rule. Eau Claire and Appleton. An explanation for the hesitation of one Wisconsin cities to make the change is found in the fact that the enabling act passed by the legislature of that state does not make some of the provisions in the law that have made commission government so effective in other states.

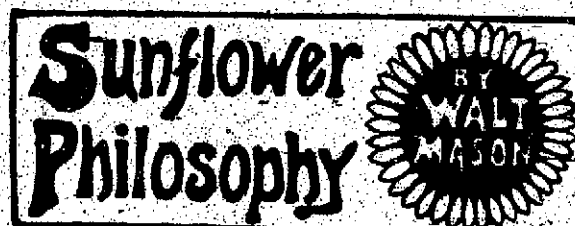

Commission government has been adopted in the different states by the following number of cities: Alabama 3, California 3, Colorado 3, Idaho 1, Illinois 17, Iowa 7, Kansas 27, Kentucky 3, Louisiana 1, Maine 1, Maryland 1, Massachusetts 3, Michigan 5, Minnesota 2, Missouri 2, Montana 1, Nebraska 1, New Jersey 5, New Mexico 1, North Carolina 3, North Dakota 3, Oklahoma 15, Oregon 1, South Carolina 1, South Dakota 11, Tennessee 5, Texas 10, Utah 5, Washington 7, West Virginia 2, Wisconsin 3, Wyoming 1. One hundred and seventy-two cities in thirty-two states.

## THE FIGHT AGAINST TUBERCULOSIS.

From the Baltimore Evening Sun.  
 In the year 1911 some \$14,500,000 was spent in the United States to cure and prevent tuberculosis, according to the report of the National Association for the Study and Prevention of Tuberculosis. For the year 1912 the expenditure was \$17,000,000 was spent; dispensaries for the examination and treatment of the disease cost \$550,000, educational work \$500,000 and the remaining \$15,950,000 went for the work of boards of health against tuberculosis and for work in open-air schools, prisons and hospitals for the insane.

Considering that tuberculosis is a preventable disease, the need for the expenditure of this money is regrettable. But considering also that we must first cure the effects of the disease due to the ignorance and neglect of the past, we may be thankful that so much was spent. It is folly, of course, to continue to live under conditions that breed tuberculosis, and the efforts of the future must be more for prevention than cure, though every cured patient becomes an apostle of prevention.

For similar work in 1912 appropriations of more than \$10,000,000 have been made by state, county and municipal bodies, while the federal government will spend at least \$1,000,000. The cause is worth its cost.

He's fond of saying caustic things. Some little witty jest that stings is always springing from his lips, and cynicism from them trips; he has a crooked little sneer for everything that you hold dear. He's so astonishingly smart!

**THE LONE SOME MAN**—Religion, marriage, home life, art—whatever you mention brings a quip that chills the words upon your lips. So we avoid this clever-gent whose polished sayings leave a dent, and crowd around the jovious youth who, though uncultured and uncouth, believes in life, believes in man, and loves the good old man's plan. The cynic goes his way alone, like some cross dog that packs a bone. When he's alive none likes his jokes, nobody mourns him when he croaks. I'd rather have my neighbors say that I'm a stupid sort of jay than win for cleverness renown by jeering at the folks in town.

## THE DAILY CHIT-CHAT

In this place I have seen hundreds of women and girls who ought to be attractive, but who are content to be plain. Just because they are actually pretty, they are content to be nonentities. They miss all that makes life worth living, the attention of the opposite sex.

These words were uttered—or rather written—by a famous French beauty.  
 Some day that woman is going to grow old. Some day, presumably, she is going to lose her youthful charms. Some day she is going to cease to be able to compete with younger women for the attention of the opposite sex. I wonder, since she thinks that is all that makes life worth living, if all that happens will cause for her then, if she does not develop a somewhat different view of life, from that which she seems to hold now. I suppose it will.

Sex is a tremendous factor in woman's life, even greater perhaps than in man's. The admiration and love of men are two of the greatest happiness stimulants that can come to a woman. But there are not, as this woman, and many others would have us believe, the whole of her life.

I am constantly reading in the newspapers and magazines, and yes, I confess it, sometimes writing myself—advice to girls to do, or not to do, this or that because "men like" this, or "men don't like" that.

An average group of girls seldom talk long without discussing some of the masculine likes and dislikes.  
 We mustn't use perfume, because "men don't like perfume."  
 We mustn't be too athletic, because "men don't like" girls who are too strong and self-reliant.  
 We must appear to be domestic, because "men are apt to fall in love with a domestic woman."  
 We mustn't insist on having the vote, because "men wouldn't care for women who know enough to vote."

I wonder if gatherings of men spend their time discussing feminine likes and dislikes. I know that men are not continually receiving advice in the papers to do this or that to please the opposite sex.

It seems to me, that we are putting altogether too much emphasis on this phase of our existence. I beg to differ with Madame, the beauty, in her statement that "the world is living to women." It is all that makes life worth living to women.

There are a great many things besides considerations of sex that make happiness for a woman. There is congenial work, there is friendship, there is social service, there is travel, there are a thousand intellectual pleasures such as books, lectures, theaters, study and so forth.

Don't believe anyone who tells you that "men like" and "the attention of the opposite sex" are the beginning and end of woman's existence. These are good things, my friends. I would be the last to deny that. But they aren't the whole of existence—even of a woman's existence.

## The Great Conflict

### A Half Century Ago Today

FEBRUARY 8, 1862

Roanoke Island, North Carolina with all its defenses, was captured by the combined naval and military force of the United States under Commodore Goldsborough and General Harland. The expedition had entered Roanoke Island the previous morning, engaging the Confederate gunboats and two batteries, Forts Barlow and Blanchard, on the Croatan river side of the island. The barracks in Fort Blanchard were set afire but no other considerable damage was inflicted on either side.

Early in the morning the Union land forces advanced in three columns against Fort Barlow. General Porter, commanding the center, moved down a road. General Benn moved through the swamps to take the enemy in the right flank and General Parke moved through the swamp on the other flank. Both flanking parties arrived simultaneously, just as Benn was to follow the central column from behind pressure. The works were taken by assault of the two flanking columns.

The Confederate squadron engaged the naval force again in the morning, but soon after the fall of Fort Barlow the entire island, together with Fort Poster on the mainland, was surrendered. Three thousand prisoners, six batteries and quantities of stores were taken. The Union forces lost 35 killed and 200 wounded.  
 Captain Smith of the Fifth Virginia cavalry surprised a squadron of Jenkins' Confederate cavalry on Linn creek, Logan county, Virginia, and took them prisoners, after handling them roughly.

## PRESIDENT'S SISTER-IN-LAW BECOMES A ROMAN CATHOLIC

NEW YORK, Feb. 7.—Mrs. Henry W. Taft, sister-in-law of President Taft, renounced her faith as an Episcopalian last week and was received into the Roman Catholic church at services in the student's chapel connected with the rectory of the St. Ignatius Loyola Roman Catholic church, Park avenue and Eighty-fourth street, of which the Rev. David W. Hearn, S. J., is pastor.

She was formally received by Father Bernard Vaughan, the English Jesuit preacher and lecturer.  
 Although the announcement of her conversion will be a surprise to many of her friends, Mrs. Taft, it was said yesterday, had long contemplated the step. She had always been a high church Episcopalian, and in the last year was a communicant of the church of St. Mary the Virgin, Episcopal. Nevertheless, she frequently attended services at St. Patrick's cathedral.

Years ago she met the eloquent Father Vaughan, and it was his influence, largely, it was admitted by Catholic clergy, that induced Mrs. Taft to become a convert.  
 Father Vaughan was in Washington yesterday with the other priests at the Vatican, and would not discuss Mrs. Taft's conversion.

## MORAL CENSORSHIP OVER PUBLIC AMUSEMENT PLACES

SAN FRANCISCO, Feb. 7.—Moral censorship over theaters, public dance halls and other places of amusement is to be exercised here by the public welfare committee of the board of supervisors. A conference has been called with the police chief, police commissioners and theater managers and a general policy as to what is expected in the line of morals will then be outlined. Recent musical comedies have been held by the supervisors no less offensive than the risqué dancing exhibitions of the Barbary Coast cafes.

## MRS. HAZZARD TO PRISON

SEATTLE, Wash., Feb. 7.—An indeterminate penitentiary sentence of from two to five years was pronounced today by Port Orchard on Mrs. L. Burfield Hazzard, the fasting specialist, convicted of manslaughter for having caused the death of Miss Claire Williamson, a wealthy English woman. Application for a new trial because of alleged improper conduct of the jury was overruled.

## Colds Affect the Kidneys

Many Colorado Springs People Have Found This to Be True.

Are you wracked in bad weather? Does every cold settle on your kidneys? Does your back ache and become weak? Are urinary passages irregular and distressing? These symptoms show kidney weakness.

The kidneys need quick help. Doan's Kidney Pills cure kidney suffering. Colorado Springs people say so. Mrs. N. F. Baird, 205 N. Corona St., Colorado Springs, Colo., says: "I gladly confirm my former public endorsement of Doan's Kidney Pills, for they permanently cured me of kidney trouble. I was bothered by attacks of pain in the small of my back and whenever I caught cold I suffered more severely. Bearing Doan's Kidney Pills highly recommended for troubles such as I had I decided to try them and obtained a supply from the Butcher Drug Co. They did such good work that I willingly endorse them."

For sale by all dealers. Price 50 cents. Foster-McLurg Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

## IN THE EARLY DAYS

### THIRTY YEARS AGO TODAY

FEBRUARY 8, 1882.  
 Nearly 100 buildings were under construction in various parts of the city.

The city council held their regular monthly meeting, which was given up to a discussion of the subjects of sewerage and irrigation.

Important discoveries of brittle and horn silver were reported from the Ten-Mile district near Leadville.

Fifteen men were at work on Bacon & Carr's new livery stable on Nevada avenue.

An Italian tramp, evidently insane, was put off a Rio Grande train and sent to the county jail, pending an examination.

Three jolly tailors had a merry time in the Blue Frog restaurant which wound up by paying fines in the police court.

Dick Bell, a Colorado City gambler, paid a fine of \$22.50 in the county court.

## Married Women's Folly

(Copyrighted, 1912, by Laura Jean Libbey.)

Was there ever a man who did not admire the merry lass who would go to balls and parties six evenings a week and whose enthusiasm never waned? Such a maiden would make a delightful companion, a young man naturally concludes.  
 For her sake he throws over the genuine young girl who frankly confesses that she does not like to go to home amid social gatherings. She refuses to participate in more than one a month, giving as her reason for not going that there's so much to see to at home, which would be neglected if she were to go. She may hear of the young man's inviting some other girl to the ball, but she banishes her regret, telling herself that buty comes first. The man who marries the girl who cannot resist party going six nights in a week in many instances lives to rue it. The delight she all well during courtship, but marriage changes people as nothing else in this world can.

There are more vital interests to be considered than that of practicing a new two-step and planning dance frocks which will outshine all others and make her the belle of the ball. The girl who is too fond of dancing is frivolous.  
 Tripping the light fantastic is all right if not indulged in to extremes. But as every one knows, pleasure can be carried a step too far. The girl who thrusts aside all duties before marriage will be apt to do so after marriage. It is a habit which strikes so deeply in her nature that it is hard to break off and to content herself with the duller joys of home life.

The light and the music have become so much a part of her existence that she cannot content herself among sober environments.  
 Her excuse for craving to go to balls after wedlock is that she doesn't want the young folk of her set to fancy that she has settled down into a prosy home body simply because she got married. She is annoyed that her husband suddenly develops a liking for toasting his slippers, feet before a grate fire, especially when some fine ball is on the tapis, inasmuch as he was the "best dancer in all the social entertainments they attended."  
 What's the use in having a husband who wastes his life by his insatiable craving home? Even with the coming of children the woman who is passionately fond of dancing is reluctant to forego it. There's a fascination about it which she finds almost impossible to resist. Her collection of dainty frockes would be useless if she couldn't show them off now and then. Such a woman remains frivolous to the end of the chapter. She is loath to take a back seat, even after she has become a grandmother. In selecting a wife, every young man should take care to choose one whose regard for duty is greater than her desire for a surfeit of pleasure.

**SHE'S UNCONVENTIONAL.**  
 "Dear Miss Libbey: I am 21. Some time ago I met a nice looking girl, who would occasionally drop in to see me at my place of business. Now it happened that I changed my position, which is some distance from her home, but she still calls to see me once in a while. And when she would call in she would kiss me and talk in a loving manner, as if she had some hopes of marriage. I do not think of marrying her, but on the other hand I can say that I like her, as she is very attractive, and I would like to take her out just as a friend. If he were to say she would go out with me as a friend, I would not object. I am sure I could get it. But I wouldn't like to go and ask her permission. Kindly inform me whether I should take her out without asking her parents' permission, and in what manner I should act in her company, as I do not want to give any fond hopes of marriage."

## SECOND SPRINGS DOCTOR MARRIES AND GOES TO VIENNA ON HONEYMOON

The marriage of Dr. R. K. Hutchings and Mrs. Maude B. Bryce in Cincinnati more than a year ago has just become known here where both are well known. Dr. and Mrs. Hutchings have been in Vienna, Austria, for several weeks where Dr. Hutchings is taking special work in surgery.

Mrs. Hutchings is the former wife of Clarence H. Bryce, a nephew of Ambassador James Bryce. In December, 1903, Bryce was sentenced to the penitentiary by Judge Robert E. Lewis of the local district court after he had pleaded guilty to charges of embezzlement. Mrs. Bryce first aided in getting a pardon for him and then divorced him.

Dr. Hutchings was city physician of Colorado Springs for some time and surgeon general of the Colorado National guard. He went to Nevada during the gold excitement and later returned to the Cripple Creek district, leasing one or two properties. He was later interested in Florida land schemes.

It is understood that Dr. and Mrs. Hutchings plan to return to this city and Dr. Hutchings will resume his practice. Dr. Hutchings is a personal friend of Dr. Slough whose marriage December 30 in Denver was not known here until Tuesday.

## Committee Considers New Publicity Scheme

At a meeting of the advertising committee of the Chamber of Commerce yesterday it was decided to wait until the convention at the Antlers hotel Saturday before deciding upon a recommendation advanced by Lee Haney, representing the Rocky Mountain Hotel Men's association, for the formation of The Tourist Publicity bureau, intended as a state organization for advertising the entire state.

However, it is probable that the committee will recommend a united action of the part of the commercial and civic bodies of the state. Haney is in this city completing arrangements for the convention to be held here Saturday afternoon, at which time the permanent organization for the advertising campaign will be formed.

## COUPLE DODGE PARENTS AND MARRY IN PUEBLO

To defeat plans their relatives had made for them, Harland West and Hazel H. Haley, both of this city, boarded a train yesterday morning, went to Pueblo and were married. They returned to this city before their marriage became public.

"We have been going together for about four or five years," the groom said last night. "There was no secret about our intentions, but our folks wanted to make it a big affair with lots of guests, a wedding dinner and things like that. This didn't suit us so we decided to beat them to it. We did."

The groom is a son of E. J. West, 615 East Williams street. The bride's parents live in California but she has been making her home with her grandmother at 517 North Boyer street. They will live here.

## LE BRUN OPERA COMPANY PLEASES LARGE AUDIENCE

The appearance of the Le Brun Grand Opera company at the fourth number on the Y. M. C. A. Star concert at the opera house last night, brought out a large number of Colorado Springs music lovers. There were no words of disappointment to be heard after the concert. The kitchen scene from "Martha" and three acts from "Il Trovatore" were sung. Mme. Le Brun in assuming the role of Lady Harriet Durham and as Leonora was particularly pleasing. Her support by Miss Dorothy Wilson as "Nancy," "Inez" and "Azucena," Fritz N. Huttman as "Plunket" and "Manrico" and Arthur Deane as "Lionel" and "Count di Luna" and "Rufus" was splendid.

One of the pleasing numbers of the evening was the "Spinning Wheel" quartet in "Martha." The voices were unusually clear and the singers were easy to follow. Numerous encores were demanded.

## Harvey Gillingham a Candidate for Sheriff

Candidates for the 1912 election are getting busy. One of the first to announce himself for the office of sheriff is Harvey Gillingham, constable in the court of Justice W. H. Gowdy. Gillingham will make the race on the Republican ticket and says he has a large number of friends to back him for the race. The primary election will be held September 10.

## Winter Night Club Meets at 6:30 P. M.

Former Senator Albert J. Beveridge of Indiana will be the speaker at the next meeting of the Winter Night Club. The meeting will be held at the Antlers hotel next Tuesday evening. A change in the dinner hour from 7 to 8:30 o'clock has been announced. Owing to the prominence of the speaker a large attendance is anticipated and members will be limited to one guest each.

## Charles Berndt to Go on Trial Today

The hearing of the Charles Berndt case, set for the district court today, promises to be a short one. Berndt is charged with manslaughter. In a fit of passion he is alleged to have attacked his wife. She died a few minutes later from heart disease.

The quarrel took place at the Berndt home near Yoder, 50 miles from Colorado Springs. From the fact that Mrs. Berndt was the mother of nine children, one but five weeks old at the time of her death, the case is unusually pathetic. It is the understanding that if it were not for his children and his desire to do something for them, Berndt would not ask to be defended. It is understood that Berndt will relate the story in full to the court and ask that the sentence be as light as possible.

## PLANS SUBMITTED FOR HIGH SCHOOL BUILDING

At the regular monthly meeting of the board of education last night plans for the new high school building were submitted by MacLaren and Thomas, architects, who received the contract for drawing the final plans.

It was reported that all but one lot of the triangle north of the High school had been secured. The purchase of a lot from the trustees of Grace church was reported by the committee last night.

A leave of absence was given to Superintendent C. M. Cole. Principal Roscoe C. Hill and Principal Carleton Ayland, of the High school annex, to attend the National Superintendence convention at St. Louis, February 26.

Resolutions Adopted.  
The meeting adjourned and the committee on permanent organization went into session, electing R. L. Holland, chairman, and A. W. Henderson, secretary. They passed resolutions, which in effect are as follows:

"The people of all the counties along the proposed line of the central road railroad. The exact route of the state road was not decided at yesterday's meeting and as yet it is not known which one of the three routes between Pueblo, Vista and Grand Junction will be used as the official highway."

"The meeting was one of the most enthusiastic good roads meetings ever held in the state, and the attendance was better than was expected. Many of the delegates came from the western slope to join in the movement of building a state road that will be a should combine and form a permanent"

association to promote the route adopted.

The name of the association should be the Lincoln Highway Association of Colorado.

The organization is to consist of all counties represented at the meeting, together with such other counties as the road will pass through.

It is stated, each county is to be regarded as a unit and each county will be given five votes, regardless of the size of the delegation.

Ex-officio delegates to the convention of the association will be the commissioners, city engineers, members of the state highway commission, county surveyors and city councils. The delegates to the convention shall be appointed by mayors, city councils, town boards, county commissioners, road roads associations, automobile clubs, agricultural associations, stockraisers associations and newspapers.

The officers will be a president, secretary, treasurer and one vice president from each county.

The board of directors will be composed of the president, secretary-treasurer, vice presidents and two delegates from each county, one of whom is to be a county commissioner named by the board of county commissioners.

## Counties Name Directors

At the meeting yesterday some of the counties named their directors, others named only two and still others decided to wait several days before naming any. Those named thus far are: Chaffee, James McKicken, vice president; Joseph M. Dougherty and Charles Nichtlieb; Lincoln, Edmund Paulig, vice president; A. N. Stevens and S. J. Shivers; Mesa, Kyle and Michael Christman; Kit Carson, J. K. Rouse, vice president; Frank L. Gibson; El Paso, J. L. Reator, vice president; F. E. Torbet and Harry Hutchinson; Pitkin, J. L. Loef, vice president; Irving Everett; Eagle, Dr. B. E. Kennedy, vice president; James Collins; Garfield, B. T. Napier, vice president; Dr. Austin Gaylin and Henry Switzer; Elbert, Lee Stewart, vice president; D. Mattison.

Judge Allen, chairman of the state highway commission, and Mr. Tully, a member of the commission, both of Denver, were present and made short talks, congratulating the delegates on the interest taken in the good roads movement in the central section of the state and offering to help in every way they could.

After these addresses, J. W. Dean of Pitkin county offered the following resolution, which was carried unanimously:

"Resolved, That it is the sentiment of this convention that in the matter of good highways the state of Colorado has reason to be satisfied with the intelligence and integrity of the state highway commission, and to expect fairness of treatment for every section of the state."

## Another Meeting Next Week

A committee of three was appointed to draw up the constitution and by-laws of the association and this committee will report at a meeting of the board of directors which probably will be held in this city next week. At this meeting the directors will also plan some financial system in order that the work may be carried on as rapidly as possible.

The central road enters the state just east of Burlington and follows the general line of the Rock Island railroad to Limon and Colorado Springs, thence west through Ute Pass and across South park to Buena Vista. Between Buena Vista and Grand Junction there are three possible routes: by way of Independence Pass, Monarch Pass and Leadville; along the general line of the Denver and Rio Grande part of one of the three great transcontinental highways.

Among the out-of-town delegates were: Mr. and Mrs. Harry C. Koch, J. L. Terron, Edward H. Koch, E. M. Cooper, John Everett and S. L. Seivers; all of Aspen; J. W. Deane, Pitkin county; P. O. Wells, Edmund Paulig, Frank Tompkins, Limon; A. E. Carlton, James Wild, W. Turner, M. C. McDonald, W. Godfrey, Leslie Carlton, S. W. Vidler, Oren Fuller, Nelson Franklin, M. B. Rapp, Teller county; W. H. Ekbert, Gunnison; G. E. Doach, B. T. Napier, W. S. Parkinson, H. A. Parkinson, Glenwood Springs; W. J. Pines, H. L. Edgerton, Carbondale; T. M. Todd, Grand Junction; E. E. Gray, L. L. Stewart, M. Altman, Simla; J. R. Rouse, Burlington; E. P. Owen, Flagler; J. S. Beachy, Stratton; A. J. McLennan, R. Campbell, G. W. Hixson, Duncan Matheson and F. D. Murphy, Mattison; F. J. Mudd and M. Christman, Leadville.

The Teller county delegation made the trip to this city in several automobiles and a feature of the trip was the record time made by A. E. Carlton, James Wild, W. Turner, W. Godfrey and S. W. Vidler, who made the run from the First National bank in Cripple Creek to the First National bank in this city in one hour and 45 minutes.

Not a Part of Other Associations.  
Although indirectly caused by the recent annual meeting of the State Good Roads association in Pueblo, the new association formed here yesterday is in no way connected with either the State Good Roads association or the Colorado Good Roads association, recently formed by the Denver delegation which broke away from the state association at the Pueblo meeting. The El Paso county delegates remained neutral in the factional fight and advocated the promotion of all three routes through the state. When Pueblo declared that the southern route was the official one, and Denver held out for the northern route, El Paso county delegates decided to form an association of the counties along the central route and develop that one, leaving the other two to Denver and Pueblo.

With this end in view Mr. Curtis called yesterday's meeting and the association was formed. It is only a matter of a short time until the central route will be completed and it is probable that when eastern motorists are coming into Colorado over this route Denver and Pueblo will still be planning to make their respective roads the "best."

## DETROIT TIGERS LOOK LIKE CONTENDERS FOR 1912 FLAG

DETROIT, Mich., Feb. 7.—It is Henry Perry of Wilson, Mich., who comes up to the expectations of those who have followed his career in the best of the minor leagues, the 1912 Detroit Tigers are likely to have an array of sluggers in the "main battery" section of their attack that will rival the lineup of any club ever organized. How would it look to have a 20 batsman leading the slugging section followed by four men whose averages are over the 300 mark? Not bad at all, eh?

There is every reason to expect just this thing, for counting Perry as a 300 batsman, Detroit will be able to boast of a quartet of fine batters extraordinary, all massed together. Most American league pitchers feel just a bit uneasy when called upon to face Cobb, Crawford and Delehanty in order, and to follow this trio with another pair of "bad" men will give the Jennings hand a bunch of women strong enough to break down almost any defensive barrier.

Assuming that Perry makes good—and there are abundant reasons on which to base this assumption—the Detroit batting order is likely to read something like this: Bush, Cobb, Crawford, Delehanty, Perry, Gainer, third baseman, catcher and pitcher. Of course there may be changes in the relative positions of those named but that is a bad guess for so early in the season.

Let Owsie Bush get on the bases at the opening of an inning, and there will be five men at his heels to drive home the run, while the next three in order though not always eligible for the select club, can do something for themselves now and then. In fact if the third sacker is hitting there will be nobody in that lineup on whom a pitcher can rest up and get his bearings.

Of the five named as 300 hitters three—Cobb, Crawford and Delehanty—are as sure to enter the select circle as they are certain of immortality from serious physical injury. Cobb seems to score a mere 300 and odd average nowadays and probably will consider that he has had a bad year in 1912 unless he reaches the 400 mark. Five years ago critics were wont to say that the Georgian was traveling beyond his speed and that he was due to blow. His strides have not been so rapid however, that now any one who dared predict a slump for the Peach would be

laughed at. If he keeps on at his present rate very long opposing teams will think they are lucky to get him out at all.

Crawford is one of those sluggers who can be depended on to hit 300 years after he dies. Nothing but the toughest kind of luck can keep him out of the best society, for he hits the ball hard nearly every time up and some of them are bound to go safe. Sum has had enough tough breaks in his career to warrant a belief that in era of good fortune is due him.

Although the Wahoo person has been in baseball a long time, he is not by any means old. He is a man of perfect habits, and makes his physical condition his life's care. So long as he continues to do this there is no fear of his slowing up immediately.

Jim Delehanty is a natural right-hand slugger, who should hit 300 every season. He has a good eye, meets the ball squarely and drives it with great force. His nerve in a pinch is proverbial, and many of his hits are made at the times when they count for badly-needed runs. Jim is absolutely fearless, at the plate and the pitcher doesn't live who can drive him away from there.

One day down in Washington, Walter Johnson came within an inch of "beating" Del with one of his very fastest balls. It isn't often that Walter puts all his tremendous power into a pitch but he did this time and had the ball struck Jim in the head it might have killed him. The next time Del was right up there again, crowding the plate as though nothing had happened while a nervous batter couldn't have been hauled into the hitter's position with a yoke of oxen.

Five years ago critics were wont to say that the Georgian was traveling beyond his speed and that he was due to blow. His strides have not been so rapid however, that now any one who dared predict a slump for the Peach would be

laughed at. If he keeps on at his present rate very long opposing teams will think they are lucky to get him out at all.

Crawford is one of those sluggers who can be depended on to hit 300 years after he dies. Nothing but the toughest kind of luck can keep him out of the best society, for he hits the ball hard nearly every time up and some of them are bound to go safe. Sum has had enough tough breaks in his career to warrant a belief that in era of good fortune is due him.

Although the Wahoo person has been in baseball a long time, he is not by any means old. He is a man of perfect habits, and makes his physical condition his life's care. So long as he continues to do this there is no fear of his slowing up immediately.

Jim Delehanty is a natural right-hand slugger, who should hit 300 every season. He has a good eye, meets the ball squarely and drives it with great force. His nerve in a pinch is proverbial, and many of his hits are made at the times when they count for badly-needed runs. Jim is absolutely fearless, at the plate and the pitcher doesn't live who can drive him away from there.

One day down in Washington, Walter Johnson came within an inch of "beating" Del with one of his very fastest balls. It isn't often that Walter puts all his tremendous power into a pitch but he did this time and had the ball struck Jim in the head it might have killed him. The next time Del was right up there again, crowding the plate as though nothing had happened while a nervous batter couldn't have been hauled into the hitter's position with a yoke of oxen.

Of the five named as 300 hitters three—Cobb, Crawford and Delehanty—are as sure to enter the select circle as they are certain of immortality from serious physical injury. Cobb seems to score a mere 300 and odd average nowadays and probably will consider that he has had a bad year in 1912 unless he reaches the 400 mark. Five years ago critics were wont to say that the Georgian was traveling beyond his speed and that he was due to blow. ## PITTSBURG PIRATES GETTING READY FOR ANOTHER FIGHT

PITTSBURG, Feb. 7.—Despite past disappointments, there are those who believe the Pirates of 1912 should (and will) make a bid for premier honors next season.

It is rather early to indulge in prognostications, yet the fact remains that the organization which is going to oppose Pittsburgh on the diamond this year will be stronger than last year's team, the pitching will be better, the catching department has been improved upon, and generally speaking the team appears from this distance to be strengthened at least 25 per cent.

The New York Giants won a comparatively easy victory last year. They grabbed the pennant with less than 100 games won, and during the race down the homestretch had little or no opposition. Pittsburgh, Chicago and Philadelphia being teetotally out of the running.

The Giants speed on the bases gave them the edge, according to most spectators, but what helped them more than that was the fact that they met with few or no accidents during the entire playing season. Then, again, when Arthur Devlin began slowing up that deal with Boston was put through whereby New York, by giving up two dead ones, secured Herzog, one of the best infielders in the business.

However, last year's happenings are all ancient history—the matter in hand is whether or not the Pirates are going to be in the running this year. Those of us who have followed closely believe they are, a glance over the material now at the command of Manager Fred Clarke strengthens that belief.

In the first place, the Pittsburgh club is going to have what it has lacked for several years—a real pitching staff. In 1909 Clarke and his fellows won the pennant and subsequently the world's championship by reason of their offensive strength. Other clubs were stronger and better on defense, but the Buccaneers bailing turned the trick.

In 1910 the pitching again was only fair and the batting was good enough to achieve results. Last year the moundmen performed only passably fair while the batting was execrable.

But this year things should be different. Even with Clarke out of the game there should (and probably will) be four 200 hitters in the lineup. Ty Cobb, Wagner, Campbell and Wilson are dangerous with the stick at all times and, while two of them are regarded at this time as being sub-par, there is more than an even chance of their breaking in as regulars.

Booe, the youngster secured from the Petersburg club in the Virginia State league, is considered a find, but whether or not he is fast enough to make good as a regular remains to be seen. Booe is a 10-second man and last year batted .315.

## CRIPPLE CREEK MINES

Special to The Gazette.  
CRIPPLE CREEK, Feb. 7.—The lessees of the Free Coinage Gold Mining company made production during January of 550 tons, an increase over previous months of the last six. Ore of as high value as \$60 to the ton was shipped by the lessees and the lowest average grade of ore shipped from the dumps returned values of \$1.50 to the ton. There are 13 sets of leases at work on the company's Bull hill estate, and some 30 odd miners are employed.

Electric Power at Masterpiece.  
A 30-horsepower electric motor was hauled Wednesday from the storehouse of the Arkansas Valley Light and Power company on Cripple creek to the portal of the Masterpiece tunnel on the eastern slope of Big Bull mountain, north of the town of Goldfield. The Masterpiece Gold Mining company owns large acreage in this section and is developing the claims by tunnel.

Vindicator Consolidated G. M. Co.  
The annual stockholders meeting of the Vindicator Consolidated Gold Mining company will be held at the Symes block in Colorado Springs on Thursday at 3 p. m. There will be no fight for control and the present board of directors will be reelected without opposition.

Isabella Mines.  
The reelection of the old board of directors, carrying with the success the continuation of Lester Grant as superintendent of the Isabella Mines company, was well received by lessees who are unanimous in praise of the courtesy extended. "Swapping horses" at this stage would have been considered little less than a calamity for miners and resident stockholders interested.

New Leasing Company.  
Articles of incorporation of the Powers Mining and Leasing company, capitalized at \$10,000 divided into 10,000 shares of the par value of \$1 each, have been filed for record with the county clerk and recorder. The officers of the Powers and L. Co., all residents of Denver, who the main office will be maintained, are H. J. Powers, C. W. Reider, E. W. Meier, W. E. Hall and J. C. Dolan. The company will operate leased properties in this district.

## NEW YORK MARKET

NEW YORK, Feb. 7.—The stock market was heavier today in tone, but trading was too listless to change the level of prices. Operations on the short side were resumed and the attack on the market was a fair degree of success. Later the market revealed itself and losses were largely made up.

The general list was influenced to a great extent by the action of United States Steel which was the heaviest of the leaders. Representative steel issues also were weak. A heavy cut in the steel tariff, it was argued, would affect independent companies more severely than the steel corporation.

Statistics of the country's output of pig iron in January were encouraging, as they showed a production slightly in excess of December and the largest since last April, with the exception of October and November.

Trading in bonds was more active. Another railroad offering as announced, the Chicago and North-western having put out \$15,000,000 worth of 4s of the Milwaukee, Sparta, & Northwestern.

Some of the active stocks again moved widely. Texas company rose 5 points and May Department stores, American Malt preferred and Mackay companies made heavy substantial gains.

American Tobacco slumped 7 points on the disappointment that the directors took no action in dividends at their meeting today. Later the loss was largely recovered.

The bond market was fairly steady. Total sales, par value, \$3,900,000. United States bonds were unchanged.

## CHICAGO MARKET

CHICAGO, Feb. 7.—Although sympathy with foreign markets carried wheat upward today, prices later sagged, owing to absence of both export and domestic demand for the cash grain. Closing prices were 1/4c to 3/4c down, last night. Trading left corn 1/2c down, oats unchanged and hog products varying from unchanged to 10c down.

Wheat speculators on the bull side found themselves put out by a statement that No. 2 red or standard grade could be purchased in Baltimore at 40c a bushel less than it would cost in Chicago. Minneapolis also reported that cash inquiry there was unmistakably slow. Commission houses that were buyers because of advance at Liverpool became heavy sellers, wiping out all the early gains. Behind the rise at the British port was the belief that Argentine shipments would be light, but this was largely offset by later news. May fluctuated from \$1.03 1/2 to \$1.04 1/2, with the close steady at \$1.03 1/2, a decline of 1/4c per cwt.

Line wheat making corn shipments easy, took away the advance scored in the first part of the session. May ranged from 67 1/2 to 68 1/2, closing steady but 1/4c off at 68c. Cash grades were easy at the finish. No. 3 yellow was quoted at 55 1/2c for car lots.

Canadian shipments, duty paid, coming successfully in New England with forwardings from there, had a bearish effect on the market for oats. May ranged from 51 1/2 to 52 1/2, with the close at 51 1/2, a net loss of 1/2c.

Provisions succumbed to the influence of the weakness in hog and grain. Pork closed 5c to 10c down, lard and ribs had not declined to exceed 5c.

### News of Local Courts

#### CASE OF TOO MANY PIGS — WILL BE TRIED IN COURT

"What constitutes a dirty hog pen?" This question will probably be answered today when H. E. Quinby is placed on trial in Justice O. R. Dunnington's court charged with keeping his pig pens in an unsanitary condition and not providing sufficient space for the pigs he owned. Quinby was arrested a few days ago on complaint of Humane Officer Reynolds.

Quinby is the proprietor of the Gar-

### "Tasteful" Meals

The main attraction about our meals is the delicious flavor. They taste good, and so CLEAN. They are wrapped in paraffine paper first, and then placed in heavy manila paper, which keeps the juices from leaking through.

Our hot and rolled roasts are tender and juicy, and are cut from the finest meat the country produces. All our meats are of the best quality, and the prices are low.

We are experts in putting up fancy roasts and fine poultry. Let us have your Sunday order.

den of the Gods burro stand in Manitou. Neighbors complained a few days ago that his pig pens were in an unsanitary condition. Officer Reynolds investigated and told Quinby that he would have to build additional room for his hogs. Reynolds says that more room was built, but Quinby placed several more hogs in the pen. His arrest followed.

#### FIVE PRISONERS TAKEN TO STATE REFORMATORY

In-charged of local authorities, five young men were taken to Buena Vista yesterday from this city to begin sentences in the state reformatory school. Jake Chenoweth, Easter Marsh, William Bixler and John Martin were convicted a few days ago of conducting a wholesale series of robberies of collars and yards in the Ramona neighborhood, and were given indeterminate sentences. Edward Holz, the fifth young man, was sentenced a few days ago after he had been found guilty of larceny.

This is the season of the year when mothers feel very much concerned over the frequent colds contracted by their children, and have abundant reason for it; as every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases that so often follow. Chamberlain's Cough Remedy is famous for its cures, and is pleasant and safe to take. For sale by all dealers.
